

## CCOO defends the private 'no reglat' teaching sector

# CCOO mobilises the private 'no reglat' sector in defence of a quality collective agreement and increased social and political recognition

### Negotiations for the 1r Conveni Col·lectiu de l'Ensenyament Privat No Reglat de Catalunya

CCOO demands the immediate signing of salary scales for 2008 and 2009, along with the text of the conveni in vigor, so that all workers can receive their increments for these 2 years. The employers' associations refuse to sign the salary scales. CCOO rejects the employers' attitude that places conditions on the signature of salary scales which would mean worsening working conditions and holiday entitlements for employees.

CCOO defends the union proposals presented in April 2009, for a decent working week for teaching and non-teaching staff alike, that guarantees quality teaching and allows for a real work/life balance for staff. CCOO resists the proposals for increased working week and unlimited availability and flexibility as proposed by the employers' associations.

The distance between the two sides is focused on these areas, working week and holidays, and underlines the slow progress to date. The negotiations continue this autumn focused on professional categories.

CCOO believes that the convenio should reflect the diverse realities that exist in the sector and guarantee quality teaching.

### Calendar of events and demonstration for November 2009
