

CCOO organises and defends workers in the 'no reglada' sector

Union organisation is our strength to defend and improve our working conditions

CCOO, as the union with majority representation in the 'no reglada' teaching sector, organises and mobilises the sector.

The foundation to defend our working conditions is:

- ✓ **Information** on our legal rights.
- ✓ **Training** in fighting for, and the collective negotiation to achieve, improvements to conditions.
- ✓ **Join the union**, to receive up-to-date information, to meet and organise with other workers from the sector, for access to the full range of resources for support, general and legal advice.
- ✓ **Organise ourselves in our workplace**, as members in union branches to support our workers' reps.
- ✓ **Hold union elections to elect workers' representatives**, in our workplace, in groups of companies and at a European level, who have the right to receive information from the company and negotiate collectively to achieve agreements that improve our working conditions.
- ✓ **Improve health and safety**, through our H&S reps and committees, and our union organised H&S training.
- ✓ **Organise ourselves across the sector**, through negotiations for the conveni, the working groups, union training, demonstrations and social activities.

Participate, as a CCOO union member, to achieve the working conditions we deserve and need.
